

MEDICAL SERVICES PROVIDERS

Western medical care in the Yekaterinburg area can be expensive, difficult to obtain, and not always comprehensive. Some facilities offer quality services, but many restrict services to normal business hours and/or to people willing to pay for services in advance. Acceptance of insurance in lieu of prepayment is rare. Most patients pay in cash and receive reimbursement from their insurance companies upon their return to the United States. State medical care is officially free of charge, but the quality of service ranges from unacceptable to uncomfortable. Russian doctors often demand payment for disposable needles, medications, and some services. There are no foreign-run in-patient clinics in Yekaterinburg.

Medical evacuation to another country is an expensive option. All travelers who visit Russia are encouraged to purchase travel medical insurance that includes coverage in the event when an evacuation is necessary.

In the event of an emergency, the U.S. Consulate General will try to assist in arranging medical care for U.S. citizens. For assistance during working hours, please call +7 (343) 379-3001, ext. 2130. After 5:30 p.m., please call the Consulate duty officer at +7 (917) 569-3549.

The U.S. Consulate General in Yekaterinburg provides this list as a tool to assist the American community in Yekaterinburg and other locations along the Trans – Siberian Railway.

The Consulate assumes no responsibility for the professional ability or reputation of the persons or medical facilities whose names appear on the following list. This information sheet was revised in October, 2015 and is subject to change without notice. If you notice any inaccuracies, please inform the American Citizen Services Unit so that we can update this information.
